

Village of Brockport Tree Board
Minutes
1.16.18
Never to be approved Tree Board Minutes – No quorum.

Present: Melissa Brown, Chris Collier, Tim Kewin and Guest Speaker Lori Staubitz

1. Approval of the minutes from December 20, 2017: These minutes were tabled until our next meeting as a quorum wasn't met.

2. Tree City U.S.A. designation: Melissa has completed the application.

3. Inventory Software: Melissa has invited (by e-mail) two students, Nick Conte and Mary Linton to come in and speak about an inventory software package. She has not received a response from the students and will try again.

Melissa and Lori will ask Erica if a link for software can be put on the Tree Board web site.

4. Arbor Day: Merrill and Margay met with Allied Frozen Storage regarding the planting of trees along the canal. Fourteen trees will be ordered in February to be planted in front of the Allied buildings. Allied will probably donate money for the trees.

Archie and Pat Kutz will match funds up to \$500.00 during the book signing and sales for "Little Nut". April 21, 2018 is the Lift Bridge Arbor Day celebration.

5. Little Nut/Celebration Forest: Lori spoke about her book, Little Nut. It would be best if we sold the books ourselves, rather than online, as Amazon takes half of the money from sales.

Lori will bring more flyers on Celebration Forest (C.F) so that we can distribute them. She would like the Tree Board website to list people who have donated to C.F. Work will be done with a lawyer in order to make formal arrangements with regard to C.F. sales.

6. Additional Business: There was some discussion about Brockport's annual Christmas tree. It was suggested that if the tree is purchased (as opposed to being donated), the money be used to purchase several small potted trees that could then be auctioned off, or donated, following the holidays.

Some parts of North Hampton park need reforestation. It was suggested that a reforestation project could be a project for Eagle Scouts?

Meeting adjourned at 7:47 P.M
