## SMITH STREET BRIDGE TRAFFIC ADVISORY

### SMITH STREET BRIDGE OVER ERIE CANAL IN BROCKPORT TO CLOSE JUNE 15

Beginning Thursday morning, June 15, 2006, the New York State Department of Transportation will close the Smith Street Bridge over the Erie Canal in the village of Brockport.

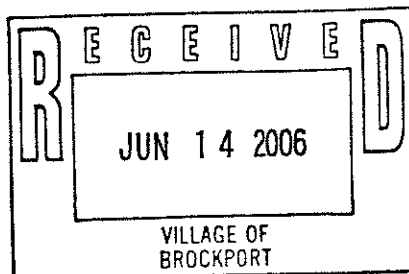

A bridge inspection revealed additional, rapid deterioration of the steel since the bridge was posted for a maximum of 3 tons last season.

No detour will be posted, but nearby crossings include Redman Road, Main Street and Park Avenue.

The bridge will remain open to pedestrians.

It is not yet known when the bridge will be repaired and reopened.
