Boil Water Notice

Monroe County Water Authority had a water main break this morning, 11/27/2020, at North Lake Road in Clarkson that affected water pressure in the Village of Brockport. When water mains lose pressure it increases the chance that untreated water and harmful microbes can enter your water.

Harmful microbes in drinking water can cause diarrhea, cramps, nausea, headaches, or other symptoms and may pose a special health risk for infants, some elderly, and people with severely compromised immune systems. But these symptoms are not just caused by microbes in drinking water. If you experience any of these symptoms and they persist, you should seek medical advice.

Prior to the water main being placed in service, it was disinfected and flushed. The water is being tested and you will be informed when the results indicate that you will no longer need to boil your water. It is likely that you will need to boil water for the next 36 to 48 hours.

Boil Water Instructions

Bring tap water to a rolling boil and boil for two minutes. Allow water to cool before using it. Or use bottled water certified for sale by the New York State Department of Health. Boiled or bottled water should be used for drinking, making ice, washing dishes, brushing teeth, and preparing food until further notice.

Questions

You can contact Village Hall at 585 (637) 5300 x112 with any questions you may have. Please leave a message for a return phone call, or email elinden@brocportny.org
